

Why I am taking on this challenge - A personal message from Dave Vernon.

"I class myself as one of the lucky ones when it comes to giving a reason for doing this challenge to support LLR - I haven't been personally touched by this terrible blood disease.

I do however have 2 beautiful children and I am always so touched when I see the amazing work our charity does for so many kids that have survived due to the support of LLR.

So its simple really, if our challenge raises enough money to change even one life then it is enough for me to give it my all for 10 days of my life and make a difference...."
