

Why I am taking on this challenge - A personal message from Shane Glass.

“As a very proud dad I worry about my children's safety and well being every single day of my life, to be sat in a room and told my daughter has Leukaemia would break me as a man, I can only imagine what individuals and there families go through during these times, compared to there pain and suffering what we are doing is a walk in the park.

I am only to proud that I am getting this opportunity to be make a difference. You are not alone in the fight to beat blood cancer.....”

Shane
